When you invest in a fund, the value of your investment can go down as well as up. SEI Investments Canada Company has rated this fund's risk as low to medium.

For a description of the specific risks of this fund, see the fund's simplified prospectus.

Are there any guarantees?

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

Who is this fund for?

Investors who:

- are looking for income and the potential for capital gains primarily through investments in non-investment grade bonds/securities of U.S. issuers;
- are comfortable with low to moderate investment risk (i.e. they are willing to accept some fluctuations in the market value of their investment);
- are willing to hold their investment for the medium to long term; and/or own or plan to own other types of investments to diversify their holdings.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Class D (H) units of the fund. The fund has other classes of units. The fees and expenses are different for each class. Ask about other classes that may be suitable for you.

1. Sales charges

No sales charges are payable for purchases made directly through the manager or authorized brokers and dealers.

2. Fund Expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of December 31, 2010, the fund's expenses were 2.85% of its value. This equals \$28.50 for every \$1,000 invested.
