**How risky is it?**

For a description of the specific risks of this fund, see the fund's simplified prospectus.

**Are there any guarantees?**

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

**Who is this fund for?**

Investors who:

- want capital growth over the long term;
- want a U.S. equity investment in companies of small capitalization;
- are planning to hold their investment for the long term and are willing to accept an average to slightly higher than average level of investment risk; and/or
- own or plan to own other types of investments to diversify their holdings

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.
