Fourth-Quarter Business Highlights:

- Revenues from Assets under management, administration, and distribution fees increased
 primarily from higher assets under management and administration due to increases from
 existing alternative investment clients of the Investment Managers segment due to new
 products and additional services. Market appreciation and positive cash flows into separately
 managed account programs and Strategist programs during 2023 also contributed to the
 increase in revenues.
- The increase in revenues from Assets under management, administration, and distribution fees was partially offset by negative cash flows from SEI fund programs in the Investment Advisors segment and client losses in the Institutional Investors segment.
- Average assets under management in equity and fixed income programs, excluding LSV, increased \$5.0 billion, or 3%, to \$167.4 billion during the fourth-quarter 2023, as compared to \$162.4 billion during the fourth-quarter 2022 (see attached Average Asset Balances schedule for further details).
- Average assets under administration increased \$133.5 billion, or 17%, to \$923.4 billion during the fourth-quarter 2023, as compared to \$789.9 billion during the fourth-quarter 2022 (see attached Average Asset Balances schedules for further details).
- Revenues from Information processing and software servicing fees increased from new client conversions and growth from existing SEI Wealth PlatformSM (SWP) clients.
- Net sales events in the Private Banks and Investment Managers segments during the fourth-quarter 2023 were \$22.9 million and are expected to generate net annualized recurring revenues of approximately \$17.6 million when contract values are completely realized. For the year ended 2023, net sales events were \$97.5 million and are expected to generate net annualized recurring revenues of approximately \$79.1 million when contract values are completely realized.
- Net sales events in asset management-related businesses of the Investment Advisors and Institutional Investors segments and the Asset Management Distribution (AMD) business in the Private Banks segment during the fourth-quarter 2023 were negative \$10.5 million. For the year ended 2023, net sales events were negative \$18.9 million.
- Net sales events for newer initiatives, which includes SEI Sphere, were \$1.3 million during the fourth-quarter 2023. For the year ended 2023, net sales events were \$2.2 million.
- During the fourth-quarter 2023, we completed the acquisition of the National Pensions Trust and also acquired Altigo, a cloud-based technology platform that provides inventory, esubscription, and reporting capabilities for alternative investments.
- The increase in operational expenses was due to higher personnel costs from business growth, competitive labor markets, and the impact of inflation on wages and services. Increased personnel costs and investments in compliance infrastructure to meet expanding regulatory requirements also contributed to the increase in operational expenses.
- One-time expense items during the fourth-quarter 2023 were approximately \$11.0 million due to an asset write-off of previously capitalized software development costs of \$5.3 million in the Investment Managers segment, \$4.7 million in severance costs, and approximately \$1.0 million in professional fees related to acquisition activity. Of the amount of severance costs during the fourth-quarter 2023, \$4.0 million was recognized in Corporate overhead expenses.
- Earnings from LSV increased to \$35.4 million in the fourth-quarter 2023 as compared to \$31.7 million in the fourth-quarter 2022 due to market appreciation and increased performance fees. Net negative cash flows from existing clients and client losses partially offset the increase in earnings from LSV.

- Capitalized software development costs were \$7.4 million in the fourth-quarter 2023, of which \$4.5 million was for continued enhancements to SWP. Capitalized software development costs also include \$2.9 million in the fourth-quarter 2023 for a new platform for the Investment Managers segment.
- Interest and dividend income increased to \$11.6 million in the fourth-quarter 2023 as compared to \$6.6 million in the fourth-quarter 2022, primarily due to higher interest rates.
- Effective tax rates were 19.6% in the fourth-quarter 2023 and 18.1% in the fourth-quarter 2022. The tax rate in the fourth-quarter 2023 was affected by reduced tax benefits related to stock option exercises.
- Repurchased shares of SEI common stock were 1.2 million for \$68.9 million during the fourth-quarter 2023 at an average price of \$58.08 per share.
- Cash flow from operations was \$101.0 million, and free cash flow was \$92.0 million during the fourth-quarter 2023.

- whether we are well-positioned for 2024 and beyond;
- the degree to which our capabilities benefit our clients;
- our ability to accelerate growth and market share;
- the benefits of our focus on key clients in the alternatives space and the cross sale opportunities that this focus may generate;
- the strength of the expansion opportunities for our turn-key Collective Investment Trust solution;
- the benefits we will derive from the businesses and/or assets we acquire and our ability to successful integrate these assets in order to drive the expected benefits, strategic and otherwise;
- the headwinds our businesses face and our ability to respond to these headwinds;
- · our ability to capitalize on our pipeline and opportunities, manage expenses, and drive profit to the bottom line;
- the amount, if any, of our current backlog of sold but expected to be installed revenue and recurring revenue in the next 18 months that will actually be installed during such period, if ever;
- · the market dynamics affecting our market units;
- our ability to improve profitability without cannibalizing our medium to long-term growth agendas;
- the areas in which we will invest;
- the degree to which the Private Banks segment's focus is paying off in both new business generation and building a quality and growing pipeline;
- our ability to expand the margins of our Private Banking business and the degree to which this business is positioned for growth;
- the amount of revenue and profit that our new FDIC cash sweep program will generate during 2024;
- our tax rate for the first guarter of 2024;
- the degree to which there is positive sales momentum in our Institutional Investors business segment; and
- the expected success and benefits of our strategic investments.

You should not place undue reliance on our forward-looking statements, as they are based on the current beliefs and expectations of our management and subject to significant risks and uncertainties, many of which are beyond our control or are subject to change. Although we believe the assumptions upon which we base our forward-looking statements are reasonable, they could be inaccurate.
