Exchange-traded funds.

Launch new exchange-traded funds within a series trust.

Exchanged-traded funds (ETFs) are one of the fastest-growing investment products in the market today. Industry experts are projecting accelerated ETF growth over the next five years, with global ETF assets expected to reach \$50 trillion by 2030.¹ With the SEC's recent exemptive relief that grants the operation of actively managed, nontransparent ETFs, and the 2019 adoption of a rule that would permit ETFs to operate without obtaining exemptive orders from the SEC, now is a good time to consider launching an ETF.

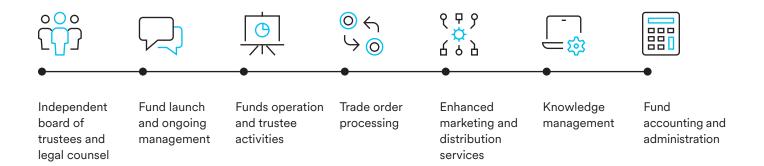

However, the reality of launching a new ETF can be challenging, especially with the growing complexities of product strategy, distribution, and compliance. When you partner with us, you can take advantage of over 20 years of ETF expertise to help you compete successfully in the ETF marketplace. You'll gain an experienced, established, independent board of trustees, a chief compliance officer, and the complete compliance policy and program framework needed to fulfill evolving regulatory requirements.

The Advisors' Inner Circle Fund®—a cost-effective way to establish an ETF.

Whether you're an investment manager launching a new ETF, or are seeking an efficient operational model for your existing ETF, consider the Advisors' Inner Circle Fund platform. This series trust solution addresses every facet of an ETF's fund operation, including fund administration and accounting, trade order processing, investor servicing, and distribution support. You'll benefit from a scalable, established infrastructure and the expertise of a professional team of seasoned experts.

With the support of The Advisors' Inner Circle Fund platform, you'll have the time to do what you do best—manage ETF investment portfolios, nurture client relationships, and grow your business.
